Session 2022-23 (EVEN)

Department of Civil Engineering

Date: 03/03/2022

Title: "Report on Interview Skills Training for Civil Engineering Students".

Date: March 3, 2022

Name of Expert/Industry Person: Mr. Imran Khan

Venue: Computer Lab Civil Engineering Department. CRT (Campus Recruitment Training).

Participants: 3rd and Final Year Students of Civil Engineering

Introduction:

On March 3, 2022, we had a special training session for the 3rd and final year Civil Engineering students CRT. The focus of this session was on how to do well in job interviews, which are super important for getting hired.

Session Overview:

We started by talking about why interviews matter so much. Basically, they're not just about what you know, but also about how you come across as a person and if you fit the company.

Key Topics Covered:

1. Understanding Interviews:

We discussed the different parts of an interview and why it's crucial to prepare beforehand. Knowing about the company and the job you're applying for makes a big difference.

2. Making a Great Resume:

We talked about how to make your resume look awesome. It's all about showing off your skills and experiences in a way that catches the employer's eye.

Guru Nanak Institute of
Technology

GURU NANAK INSTITUTE OF TECHNOLOGY

Dahegaon, Kalmeshwar Road, Nagpur-441 501.

Session 2022-23 (EVEN)

Department of Civil Engineering

3. Interview Etiquette:

We went over how to act and dress professionally during interviews. Your body language and how you present yourself matter a lot.

4. Answering Questions:

We practiced answering common interview questions. The goal is to be clear and confident when talking about yourself and your experiences.

5. Handling Technical Questions:

Since Civil Engineering jobs often have technical aspects, we talked about how to prepare for those kinds of questions. It's important to review your core subjects and be ready to solve problems.

Conclusion:

This session was really helpful for the students. We learned a lot about how to ace interviews and feel more confident. Hopefully, with these skills, we'll be able to land great jobs in the future. Thanks to everyone who organized it!

Session 2022-23 (ODD)

Department of Civil Engineering

Date: 11/07/2022

Title: CRT (Campus Recruitment Training) Report on SAP2000 Training.

Date: July 11, 2022

Name of Expert: Prof. Sagar Deogirkar

Venue: Computer Lab Civil Engineering

Introduction:

On July 11, 2022, a Campus Recruitment Training (CRT) session was conducted focusing on SAP2000, a structural analysis and design software widely used in the field of Civil Engineering. This session aimed to equip students with essential skills and knowledge in using SAP2000 for structural analysis and design purposes.

Session Overview:

The session commenced with an introduction to SAP2000, emphasizing its significance in modern civil engineering practices. The facilitator highlighted the software's capabilities in modeling, analyzing, and designing various types of structures, including buildings, bridges, and dams.

Key Topics Covered:

1. Introduction to SAP2000: The session began with an overview of the software's interface, tools, and functionalities. Students were introduced to the basics of creating models, defining materials and sections, and applying loads and boundary conditions.
2. Structural Modeling: Participants were guided through the process of creating 2D and 3D models of structures using SAP2000. The importance of accurate modeling techniques, including proper meshing and element properties assignment, was emphasized to ensure reliable analysis results.

Technology

GURU NANAK INSTITUTE OF TECHNOLOGY

Dahegaon, Kalmeshwar Road, Nagpur-441 501.

Session 2022-23 (ODD)

Department of Civil Engineering

3. Structural Analysis: The session delved into the fundamentals of structural analysis using SAP2000. Students learned about different analysis methods, such as linear static analysis, modal analysis, and response spectrum analysis, and how to interpret analysis results effectively.

4. Design Capabilities: Practical demonstrations were conducted to showcase SAP2000's design capabilities for various structural elements, including beams, columns, and slabs. Participants gained insights into code-based design procedures and optimization techniques to ensure structural safety and efficiency.

5. Hands-on Practice: The session included hands-on exercises where students had the opportunity to apply their newly acquired skills in using SAP2000. Through guided tutorials and problem-solving activities, participants gained confidence in navigating the software and performing structural analysis and design tasks.

Conclusion:

The CRT session on SAP2000 proved to be highly beneficial for the participants, providing them with valuable insights and practical skills in utilizing this essential software tool for civil engineering applications. By gaining proficiency in SAP2000, students are better equipped to tackle real-world structural engineering challenges and contribute effectively to the industry.

Overall, the session received positive feedback from the participants, who appreciated the interactive and hands-on approach adopted during the training. It is hoped that the knowledge and skills gained will empower students to excel in their future endeavors in the field of civil engineering.

Session 2022-23

Department of Civil Engineering

Date: 06/03/2022

Title: CRT Report on STAAD.Pro Training

Date: March 6, 2023

Venue: CAAD Lab

Name of Expert: Mr. Pravin Jadav.

Participants: Civil Engineering Students

Introduction:

On March 6, 2023, a Campus Recruitment Training (CRT) session was conducted focusing on STAAD.Pro, a widely used structural analysis and design software in the field of Civil Engineering. This session aimed to familiarize students with the functionalities of STAAD.Pro and enhance their skills in structural analysis and design.

Session Overview:

The session commenced with an introduction to STAAD.Pro, highlighting its importance in modern civil engineering projects. The facilitator emphasized the software's capabilities in modeling complex structures, analyzing their behavior under various loads, and designing them to meet safety and performance requirements.

Key Topics Covered:

1. Introduction to STAAD.Pro: The session began with an overview of the software's interface and features. Students were introduced to the different modules of STAAD.Pro and their respective functionalities, including model generation, analysis options, and design tools.
2. Structural Modeling: Participants were guided through the process of creating structural models using STAAD.Pro. Emphasis was placed on efficient modeling techniques, such as defining nodes, elements, and supports, and assigning material properties and cross-sections.

Session 2022-23

Department of Civil Engineering

3. **Structural Analysis:** The session delved into the fundamentals of structural analysis using STAAD.Pro. Students learned about different analysis methods supported by the software, including static analysis, dynamic analysis, and finite element analysis (FEA), and their applications in assessing structural behavior.

4. **Design Capabilities:** Practical demonstrations were conducted to showcase STAAD.Pro's design capabilities for various structural components, such as beams, columns, and foundations. Participants gained insights into code-based design procedures and optimization techniques to ensure structural integrity and compliance with design codes.

5. **Hands-on Practice:** The session included hands-on exercises where students had the opportunity to apply their newly acquired skills in using STAAD.Pro. Guided tutorials and problem-solving activities enabled participants to gain practical experience in modeling, analyzing, and designing structures using the software.

Conclusion:

The CRT session on STAAD.Pro proved to be highly beneficial for the participants, equipping them with valuable skills and knowledge in structural analysis and design. By gaining proficiency in STAAD.Pro, students are better prepared to tackle real-world engineering challenges and contribute effectively to the industry.

Overall, the session received positive feedback from the participants, who appreciated the interactive learning environment and the opportunity to enhance their software skills. It is expected that the knowledge and skills acquired during the session will serve students well in their future careers in civil engineering.

Report On Workshop

Department of Civil Engineering GNIT, Nagpur organized a Two days Workshop from 07th to 8th Feb. 2023 on the topic 'Future Scope after Graduation' for Final year Civil Engineering students. The session was graced by Mrs. Nanda Jichkar, Jichkar Academy of Digital Skills Nagpur she focused on various aspect of Future Scope. Around 102 students of Civil Engineering, of final year were present for the seminar. During this session, students acquired current knowledge of Future Scope. Students feel the Workshop knowledgeable & interesting.

REPORT

One day Guest Lecture on “**How to qualify Gate,**” for all the students of Final Year in M1 Auditorium at 10.30 AM on Date: 28/11/2022.

The resource person for this is **Mr. Nitesh Mahule, Astral Informatics PVT. Ltd, Nagpur.** The lecture were taken by **Mr. Nitesh Mahule** is an expert in the competitive examination and possesses the thorough knowledge about the different competitive examinations and he was the main speaker. The lecture was mainly focused on the how to qualify GATE exam and what should engineers do after their completion of degree. It was mainly concentrated on the IES and GATE. Apart from this examinations, discussion about the other examinations also happened like CAT and AMCAT.

He covered points like how exam is conducted, syllabus, and its importance, also the different department in government that students can get into after clearing the IES examination were discussed. After IES the focused was shifted towards the GATE. Initially he talked about the importance of GATE, and emphasized the students for appearing in GATE. How different Public Sector Unit (PSU) gives job to the candidate who clear the GATE with good AIR.

On the later part of the lecture, they have discussed about the MBA programs and CAT examination. He talked about what kind of preparation candidate has to do before appearing for CAT examination.

The final session was a learning and interactive session for the students where he answered all the queries put up by the students to their full satisfaction. Students were highly benefited by this guest lecture. More than 60 students were benefited through the lecture.

REPORT

One day workshop on “**Introduction to GATE,**” for all the students of Final Year in Computer Lab at 10.30 AM on Date: 20/09/2022

The resource person for this is Mr. Ashish Thakur, Inspiring Creativity and Endeavor, (ICE) Academy, Nagpur

This workshop was to make an insight of knowledge about the GATE, The speaker guest invited was **Mr. Ashish Thakur, Inspiring Creativity and Endeavor, (ICE) Academy, Nagpur**. The lecture was started with formal introduction of the speaker, then he told the importance of the General Aptitude & their awareness in competitive exam. The seminar was conducted on the white board presentation. **Mr. Ashish Thakur** gave the basic information & techniques of solving the problems in IES examination. He makes student to understand the topics on basic engineering and how to solve within time. He discussed some topics which are helpful for preparing the notes of Competitive exam (GATE, UPSC, ISRO, etc..) & campus recruitment (GD & PI). Before finishing the seminar he proposed thanks for patience listening and wished a bright future for students.

Report On Guest Lecture

Department of Mechanical Engineering, GNIT, Nagpur organized a Guest Lecture on 16th February, 2023 on the topic “**Information of GATE, IES & PSU**” preparation for Mechanical Engineering students of IVth & VIth Semester.

The session was graced by **Mr. Akash Jaiswal Academic head of ICE GATE Institute.**

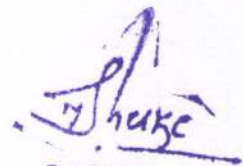

He focused on various aspects of **competitive examination** especially on various aspects of IES, GATE, and PSU's. Around 90 students of Mechanical Engineering, 4th & 6th Semester was present for the Guest Lecture. During the session, students acquired current knowledge **competitive examination**. Students feel the guest lecture knowledgeable, interesting & practically oriented. He makes student to understand the topics on basic engineering and how to solve within time. He discussed some topics which are helpful for preparing the notes of Competitive exam

REPORT

Two days workshop on "**Quality & their Tool for quality Improvement**" was organized by Mechanical Engineering Department for all the students of Second Year at 10.30 AM on Date: 08/09/2022 to 09/09/2022.

The resource person for this is **Mr. Bhushan Thengre, JSW Steel Kalmeshwar, Nagpur.**

The objective of organizing this workshop was to enhance the knowledge about various tools used in industries and various means to improve their quality for good performance. Session started with the basics of tools used in Mechanical Engineering Industries He explained students the basics of "**Quality & their Tool for quality Improvement**" in very simple yet effective manner. His comprehensive talk provided the students with the theoretical details of various types of tools used in Industries. He also discussed how the tool quality can be improved by various means.

Date: March 6, 2023

Venue: Computer Lab

Name of Expert:: Dr. D.Sujatha

Participants: Computer Science & Engineering Students

Introduction:

Campus recruitment training based programme was conducted for final year students of CSE on C & Data structures. The main objective of this training is to train the students to excel their programming skills and to speed up the ability in solving Programming aptitude Questions on the point of interview.

Key Topics Covered:

Following are the topics that are covered in the Three day CRT program:

Day 1: Introduction to c programming- Patterns Programs & Loops in C programming.

Day 2: Arrays, Strings, Pointers

Day 3: Structures, Linked list, Stacks

The training was well conducted by the faculties of path creators. They made the students interact with them effectively in answering the entire question. This training helped students to develop the Coding skills and they learnt different methodologies to solve programming questions in faster manner. The students were grateful to their beloved Principal Dr.Sudhir N Shelke Sir, HoD Pawan Raut and CRT coordinator Dr. D.Sujatha sir for facilitating the training sessions which were highly focused towards campus placements
